

# French Windows

**Our beautiful French Windows offer homeowners unrestricted views of the surrounding area.**

Enjoy unobstructed views with these spectacular, traditional style French Windows. The floating mullion enables both of the windows to open fully, while child safety latches are also fitted as standard for extra safety. These two features offer the option of secure ventilation or full, unrestricted views as needed.

These windows, made with Kommerling profile, are available in White, Oak, Oak on White, Rosewood and Rosewood on White. These fabulous French Windows also provide further peace of mind because, due to their 90 degree hinges, they work perfectly as a means of escape in a fire.
